### Editorial Review

#### About the Author

Communicating with animals telepathically throughout her life, Penelope Smith discovered in 1971 that animals could be relieved of emotional traumas and other problems through the same counseling techniques that helped humans. The training and experience that have contributed to her success are her educational background, with bachelor's and master's degrees in the social sciences; years of training and experience in human counseling, nutrition, and holistic body energy balancing methods; research into animal nutrition, anatomy, behavior, and care; plus the firsthand education from the thousands of animals she has contacted. Smith's visionary work as the leading pioneer in the field whose name she originated, interspecies telepathic communication, has been featured in newspaper and magazine articles, numerous books, and on radio and television. She has developed tried-and-true telepathic communication techniques, complementing ancient wisdom and modern scientific knowledge. Her methods foster people's ability to understand and communicate with animals on physical, mental, emotional, and spiritual levels. A legendary teacher for over three decades, she has helped launch the careers of numerous professional animal communicators. Smith feels that the sacred connection we make through telepathic communication with other species is essential for human wholeness. She believes that everyone is born with the power to communicate with other species, and that, although it is long lost for most people, it can be regained for the benefit of all beings on Earth. Penelope Smith is the author of the popular, classic books on the subject, *Animal Talk* (available in many languages), *When Animals Speak*, and, *Animals in Spirit*. She is the editor of *Species Link* magazine, founded in 1990. Her audio recordings include the *Animal Communication Mastery Series*, *Animal Healing Power*, *Animal Spirit Call*, and the *How to Communicate with Animals The Basic Course*.
