Meteorology Today By C. Donald Ahrens, Robert Henson

C. Donald Ahrens and Robert Henson combine expert content in weather, climate, and earth science with the interactive experience you expect from Cengage Learning. Grounded in the scientific method, this reader-friendly and highly visual book shows you how to observe, calculate, and synthesize information as a budding scientist, systematically analyzing meteorological concepts and issues. Specific discussions center on severe weather systems, such as tornadoes, thunderstorms, and hurricanes, as well as everyday elements, such as wind, precipitation, condensation, masses and fronts, and the seasons. Events and issues dominating today's news cycles also receive thorough attention, and include analysis of Superstorm Sandy, the Oklahoma tornadoes, recent findings from the US National Climate Assessment and the Intergovernmental Panel on Climate Change, and more. Whether you choose a bound book or eBook, METEOROLOGY TODAY, 11th Edition is a dynamic learning experience packed with end-of-chapter summaries, key terms, review questions, exercises and problems, live animations, web links, and more to carry your learning to atmospheric heights!

Editorial Review

About the Author

Don Ahrens is Professor Emeritus at Modesto Junior College in Modesto, California. The best-selling author of two Cengage Learning texts, Professor Ahrens received the Textbook and Academic Authors Association's McGuffey Longevity Award for the 9th Edition of his market-leading METEOROLOGY TODAY. He has influenced countless professionals in the field of atmospheric science as well as hundreds of thousands of students who use his books to better understand weather and climate. In 2007, the National Weather Association awarded Professor Ahrens a lifetime achievement award for these accomplishments. Co-author Robert Henson is a meteorologist and science writer at Weather Underground who worked for many years at the University Corporation for Atmospheric Research, which operates the National Center for Atmospheric Research.

Users Review

From reader reviews:

Mildred Smith:

In other case, little individuals like to read book Meteorology Today. You can choose the best book if you'd prefer reading a book. Provided that we know about how is important some sort of book Meteorology Today. You can add understanding and of course you can around the world by the book. Absolutely right, simply because from book you can learn everything! From your country till foreign or abroad you will find yourself known. About simple matter until wonderful thing you may know that. In this era, you can open a book as well as searching by internet gadget. It is called e-book. You can utilize it when you feel uninterested to go to the library. Let's learn.

John Valdez:

Nowadays reading books be a little more than want or need but also become a life style. This reading practice give you lot of advantages. The advantages you got of course the knowledge your information inside the book this improve your knowledge and information. The data you get based on what kind of reserve you read, if you want attract knowledge just go with education and learning books but if you want feel happy read one using theme for entertaining such as comic or novel. The particular Meteorology Today is kind of guide which is giving the reader unforeseen experience.

Richard Lamm:

Information is provisions for anyone to get better life, information nowadays can get by anyone from everywhere. The information can be a understanding or any news even a problem. What people must be consider any time those information which is within the former life are challenging be find than now is taking seriously which one is appropriate to believe or which one the actual resource are convinced. If you find the unstable resource then you understand it as your main information there will be huge disadvantage for you. All of those possibilities will not happen in you if you take Meteorology Today as your daily

resource information.

Mamie Contreras:

Reading a e-book tends to be new life style in this particular era globalization. With looking at you can get a lot of information that can give you benefit in your life. Having book everyone in this world can share their idea. Publications can also inspire a lot of people. A great deal of author can inspire their reader with their story as well as their experience. Not only situation that share in the books. But also they write about the information about something that you need illustration. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors on this planet always try to improve their talent in writing, they also doing some exploration before they write with their book. One of them is this Meteorology Today.
