Religion in the Making: Lowell Lectures, 1926 By Alfred North Whitehead

This classic text in American Philosophy by one of the foremost figures in American philosophy offers a concise analysis of the various factors in human nature which go toward forming a religion, to exhibit the inevitable transformation of religion with the transformation of knowledge and to direct attention to the foundation of religion on our apprehension of those permanent elements by reason of which there is a stable order in the world, permanent elements apart from which there could be no changing world.
