This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: ...boring in decaying logs. unique in the parental care exhibited by both males and females. and remarkable also for the sound produced both by adults and young; 11, the "tumblebug" beetle that flies at night and is often attracted to lamps. Photo: IV. A. Green. THE BORING PURPLE SEA-URCHIN, STRONGYLOCENTROLUS LIVIDUS, IN A ROCK POOL, BUNDORAN These Urchins bore cavities for themselves in the Carboniferous Limestone, and are sometimes permanently sealed up in their holes by the growth of a calcareous seaweed that covers the rocks. In some cases one side of the cavity is wholly composed of the calcareous Alga. The method by which the hole is bored is uncertain. but it is probably chemical. The subject requires re-investigation. had 2,425 annual rings when it was killed, and must have begun to live 525 years before the Christian era. "We have," wrote Professor W. R. Dudley, "deep in their annual rings, records which extend far beyond the beginnings of Anglo-Saxon peoples, beyond even the earliest struggles for liberty and democracy among the Greeks--records of forest conflagrations, of the vicissitudes of the seasons, of periods of drought and periods of abundant and favouring rains." In our conception of life we must not forget these sublime instances of its power to endure. XXI THE ROMANCE OF CHEMISTRY THE ROMANCE OF CHEMISTRY WHEN we first visit a great museum we are impressed by the multitude of different kinds of things: these thousands of startlingly different species of animals--each itself, and no other--these hundreds of different kinds of wood, shelf after shelf of minerals, an Aladdin's cave of precious stones, besides all manner of things artificially made, such as alloys and fabrics, drugs and preserved foods. Some of t...

Editorial Review

Users Review

From reader reviews:

Nathan Lawhorn:

The book *The Outline of Science; A Plain Story Simply Told, Volume 3* can give more knowledge and information about everything you want. Why must we leave a good thing like a book *The Outline of Science; A Plain Story Simply Told, Volume 3*? Wide variety you have a different opinion about book. But one aim that book can give many info for us. It is absolutely correct. Right now, try to closer with the book. Knowledge or data that you take for that, you may give for each other; you may share all of these. Book *The Outline of Science; A Plain Story Simply Told, Volume 3* has simple shape nevertheless, you know: it has great and large function for you. You can search the enormous world by open up and read a guide. So it is very wonderful.

Martin McDaniel:

Reading a book tends to be new life style on this era globalization. With reading through you can get a lot of information that will give you benefit in your life. Having book everyone in this world can easily share their idea. Publications can also inspire a lot of people. Plenty of author can inspire their particular reader with their story or maybe their experience. Not only situation that share in the guides. But also they write about the ability about something that you need example of this. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors these days always try to improve their skill in writing, they also doing some research before they write on their book. One of them is this *The Outline of Science; A Plain Story Simply Told, Volume 3*.

Teresa Hennessey:

Many people spending their moment by playing outside together with friends, fun activity together with family or just watching TV all day every day. You can have new activity to invest your whole day by reading a book. Ugh, think reading a book really can hard because you have to use the book everywhere? It okay you can have the e-book, bringing everywhere you want in your Mobile phone. Like *The Outline of Science; A Plain Story Simply Told, Volume 3* which is getting the e-book version. So , try out this book? Let's see.

Michael Dennison:

A lot of e-book has printed but it is unique. You can get it by web on social media. You can choose the most effective book for you, science, comedy, novel, or whatever simply by searching from it. It is known as of book *The Outline of Science; A Plain Story Simply Told, Volume 3*. You can contribute your knowledge by

it. Without making the printed book, it might add your knowledge and make a person happier to read. It is most essential that, you must aware about publication. It can bring you from one destination for a other place.
