Musculoskeletal Imaging: A Teaching File (LWW Teaching File Series) By Felix S. Chew, Catherine C. Roberts

The Second Edition of this popular text presents over 370 musculoskeletal imaging cases from the teaching files of leading medical centers. The format replicates the learning experience of sitting at the viewbox with an expert consultant, honing your diagnostic reasoning skills—an excellent aid in preparing for board exams. All cases are presented as unknowns in a consistent format—a brief clinical history, one or more images, a description of the findings, the diagnosis, and a discussion.

Organized by anatomic region, the case collection encompasses all current imaging modalities and all categories of musculoskeletal disease. This edition includes 37 new cases and new images for 140 cases.
