Qualitative Methods for Health Research (Introducing Qualitative Methods series) By Judith Green, Nicki Thorogood

The Third Edition of this bestselling title is packed full of real-world advice for researchers and students. It is an invaluable introduction to the theoretical and practical essentials needed to design, conduct and appraise qualitative research in health.

The book highlights core research skills, taking the reader through the key debates in qualitative methodology. It sets out a logical, easy-to-follow path supported by practical examples ensuring you will find it engaging and relevant.

Updates for the new edition include:

- a new chapter on effectively combining methods
- new material on the practical aspects of securing access to participants, using online data and on selecting an approach for analysis
- improved material on reading and appraising literature with detailed exploration of systematic reviews and synthesis
- expanded chapters on analysing data, with practical suggestions for moving from descriptive to analytical approaches
- an effective mix of classic and contemporary case studies from across health research
- expanded summaries, key points and reflective questions designed to help students apply theory to their own research.

Clear, thorough and articulate, this is an authoritative introduction to qualitative

research for all health professionals and students.

Visit the accompanying companion website for additional resources.

Judith Green is a Professor in Sociology of Health at the London School of Hygiene and Tropical Medicine.

Nicki Thorogood is a Senior Lecturer in Sociology at the London School of Hygiene and Tropical Medicine.

Editorial Review

Review

Revised and updated for a third edition, Green and Thorogood's excellent textbook provides a solid grounding for health professionals in the theory and practice of qualitative research methods. This new edition, with an increased focus on data management and analysis, will remain the core qualitative methods textbook for our Master in Public Health Programme.

(Dr Stephen Clayton, Director of Studies for the Online Master of Public Health 2013-10-14)

Users Review

From reader reviews:

Whitney Mallard:

Do you have favorite book? If you have, what is your favorite's book? Reserve is very important thing for us to understand everything in the world. Each reserve has different aim or perhaps goal; it means that guide has different type. Some people sense enjoy to spend their time and energy to read a book. They may be reading whatever they acquire because their hobby will be reading a book. Why not the person who don't like studying a book? Sometime, particular person feel need book after they found difficult problem or perhaps exercise. Well, probably you will need this Qualitative Methods for Health Research (Introducing Qualitative Methods series).

Beatrice Kennemer:

Reading a guide can be one of a lot of task that everyone in the world enjoys. Do you like reading book consequently. There are a lot of reasons why people love it. First reading a publication will give you a lot of new details. When you read a publication you will get new information simply because book is one of a number of ways to share the information or maybe their idea. Second, studying a book will make you actually more imaginative. When you reading a book especially fictional works book the author will bring you to imagine the story how the characters do it anything. Third, you could share your knowledge to other folks. When you read this Qualitative Methods for Health Research (Introducing Qualitative Methods series), you may tells your family, friends and soon about yours reserve. Your knowledge can inspire the mediocre, make them reading a book.

Keith Karam:

Exactly why? Because this Qualitative Methods for Health Research (Introducing Qualitative Methods series) is an unordinary book that the inside of the e-book waiting for you to snap that but latter it will distress you with the secret that inside. Reading this book close to it was fantastic author who all write the book in such remarkable way makes the content within easier to understand, entertaining technique but still

convey the meaning entirely. So, it is good for you for not hesitating having this anymore or you going to regret it. This excellent book will give you a lot of positive aspects than the other book possess such as help improving your expertise and your critical thinking means. So, still want to hold off having that book? If I were being you I will go to the book store hurriedly.

Julio Canfield:

Playing with family in a park, coming to see the marine world or hanging out with friends is thing that usually you might have done when you have spare time, in that case why you don't try matter that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition associated with. Even you love Qualitative Methods for Health Research (Introducing Qualitative Methods series), you may enjoy both. It is excellent combination right, you still would like to miss it? What kind of hang type is it? Oh seriously its mind hangout men. What? Still don't buy it, oh come on its named reading friends.
