Encyclopedia of Dairy Sciences From Academic Press

Dairy Science includes the study of milk and milk-derived food products, examining the biological, chemical, physical, and microbiological aspects of milk itself as well as the technological (processing) aspects of the transformation of milk into its various consumer products, including beverages, fermented products, concentrated and dried products, butter and ice cream.

This new edition includes information on the possible impact of genetic modification of dairy animals, safety concerns of raw milk and raw milk products, peptides in milk, dairy-based allergies, packaging and shelf-life and other topics of importance and interest to those in dairy research and industry.

- Fully reviewed, revised and updated with the latest developments in Dairy Science
- Full color inserts in each volume illustrate key concepts
- Extended index for easily locating information

Editorial Review

Review

"...Highly recommended." --**Anita Ezzo, Food Science and Technology Librarian, Michigan State University Library**

"This encyclopedia should be in every library dealing with dairy science..." --**International Dairy Journal**

"The four-volume reference work serves as a complete resource guide for dairy science students, researchers, practitioners and industry personnel. Dairy cattle, their milk and milk products are the main emphases of the encyclopedia, but it also includes articles on other milk-producing animals, such as goats, sheep, horses, camels and Northern Scandinavian reindeer. There are articles specifically on economics and trade issues related to milk and milk products." --**DeltaFarm Press.com**

About the Author

Dr. Patrick Fox is Emeritus Professor of Food Chemistry at University College, Cork, Ireland. Prof. Fox's research has focused on the biochemistry of cheese, the heat stability of milk, physico-chemical properties of milk proteins and food enzymology. He has authored or co-authored about 450 research and review papers, authored or edited 25 text-books on Dairy Chemistry and was one of the founding editors of the International Dairy Journal. In recognition of his work, Prof Fox has received the Research & Innovation Award of the (Irish) National Board for Science and Technology (1983), the Miles-Marschall Award of the American Dairy Science Association (1987), Medal of Honour, University of Helsinki (1991), the DSc degree of the National University of Ireland (1993), the Senior Medal for Agricultural & Food Chemistry of the Royal Society for Chemistry (2000), the ISI Highly Cited Award in Agricultural Science (2002) and the International Dairy Federation Award for 2002. Prof Fox has been invited to lecture in various countries around the world, and has served in various capacities with the International Dairy Federation, including President of Commission F (Science, Nutrition and Education) from 1980 to 1983.

Paul McSweeney is Professor of Food Chemistry in the Department of Food and Nutritional Sciences, University College, Cork, Ireland (UCC). He graduated with a BSc (Hons) in Food Science and Technology in 1990 and a PhD in Food Chemistry from UCC in 1993 and also has an MA in Ancient Classics and a Post-Graduate Certificate in Teaching and Learning in Higher Education (2012). He spent seven months (Jan-Aug, 2014) as interim head of the College of Science, Engineering and Food Science in UCC. He worked for a year in the University of Wisconsin (1991-2) as part of PhD and as a post-doctoral research scientist in UCC (1993-4). He was appointed to the academic staff of UCC in 1995. Prof McSweeney is an experienced lecturer and researcher and has successfully managed research projects funded through the Food Industry Research Measure and its predecessors administered by the Irish Department of Agriculture and Food, the EU Framework programs, the US-Ireland Co-operative Program in Agriculture/Food Science and Technology, Bioresearch Ireland and industry. He was awarded the Marschall Danisco International Dairy Science Award of the American Dairy Science Association in 2004 and in 2009 a higher doctorate (DSc) on published work by the National University of Ireland.

Users Review

From reader reviews:

Dick McAlister:

Reading a book tends to be new life style with this era globalization. With reading you can get a lot of information that can give you benefit in your life. Using book everyone in this world can share their idea. Guides can also inspire a lot of people. Lots of author can inspire their reader with their story or their experience. Not only situation that share in the textbooks. But also they write about the ability about something that you need instance. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors nowadays always try to improve their talent in writing, they also doing some analysis before they write for their book. One of them is this Encyclopedia of Dairy Sciences.

Alysa Appel:

The reserve with title Encyclopedia of Dairy Sciences has lot of information that you can discover it. You can get a lot of advantage after read this book. That book exist new knowledge the information that exist in this reserve represented the condition of the world right now. That is important to yo7u to find out how the improvement of the world. This specific book will bring you inside new era of the glowbal growth. You can read the e-book on the smart phone, so you can read the item anywhere you want.

Debra Riggs:

Playing with family in the park, coming to see the ocean world or hanging out with pals is thing that usually you may have done when you have spare time, and then why you don't try factor that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Encyclopedia of Dairy Sciences, you are able to enjoy both. It is fine combination right, you still wish to miss it? What kind of hang-out type is it? Oh can happen its mind hangout men. What? Still don't obtain it, oh come on its referred to as reading friends.

Nicholas Buchanan:

Many people spending their time by playing outside having friends, fun activity together with family or just watching TV all day long. You can have new activity to invest your whole day by looking at a book. Ugh, you think reading a book can actually hard because you have to use the book everywhere? It all right you can have the e-book, getting everywhere you want in your Smartphone. Like Encyclopedia of Dairy Sciences which is getting the e-book version. So , try out this book? Let's find.
