Editorial Review

Review

This book is the way to go for a one-semester course: a text that's full, but not dense. It's well-informed and intelligently written, yet still accessible. The big-picture approach combined with guided questions keep students on track, while the writing is lively, anecdotal, and illustrative—a nice balance of the forest and trees. The concise nature of the text makes it particularly suitable for online or condensed semesters. (Christopher M. Bellitto, Kean University)

I liked the first edition, and I love the second. Concise, clear, with lively text, this new edition adds useful primary sources while retaining the strengths of the earlier edition. Brian Pavlac does an exceptional job in demonstrating to students how historians work, while providing them the tools to begin their own forays into the thickets of history. (Judith Travers, Suffolk County Community College)

This lively text offers a brief, readable description of our common Western heritage. Providing a tightly focused narrative and interpretive structure, Brian A. Pavlac covers the basic historical information that all educated adults should know. His joined terms “supremacies and diversities” develop major themes of conflict and creativity throughout history. “Supremacies” emphasizes power. “Diversities” illustrates the creativity of new ideas and associations. The text is also informed by five topical themes: technological innovation, migration and conquest, political and economic decision making, church and state, and disputes about the meaning of life. Written with flair, this easily accessible yet deeply knowledgeable text provides all the essentials for a course on Western Civilization.

About the Author

Brian A. Pavlac is the Herve A. LeBlanc Distinguished Service Professor and chair of the Department of History at King's College in Wilkes-Barre, Pennsylvania.

Users Review

From reader reviews:

Mathew Holstein:
