## **Pimpernel** By Sheralyn Pratt

For centuries, the elite of the world have sought the Pimpernel everywhere. Some want to kill him, others want to hire him, but Jack Cavanaugh knows that the love/hate relationship comes with the job title.

At present, Jack is trying to dismantle an investment scheme centered in Las Vegas, but "trying" is the operative word. It's been a month since he put the face of the scheme behind bars, yet the scam is still going strong. As Jack tries to uncover who has stepped in as the new head, what miniscule evidence there is all seems to point him back to Claire Ramsey, an introverted PhD student studying at UNLV.

If ever there as an unlikely head of an investment scheme, Claire's it. She has a genius IQ, but from all Jack has seen, Claire's intelligence is as much a blessing as a curse when paired up with her acute OCD. Claire can barely make conversation with the cute guy down the hall, which makes it hard to believe she could be the charismatic salesperson who is getting international businessmen to invest \$5—50 million a pop.

So what is Jack missing? What is the real story behind Claire Ramsey? And once Jack learns it, will he be able to walk away?
