### Zoo, or Letters Not About Love By Viktor Shklovsky

While living in exile in Berlin, the formidable literary critic Viktor Shklovsky fell in love with Elsa Triolet. He fell into the habit of sending Elsa several letters a day, a situation she accepted under one condition: he was forbidden to write about love. *Zoo, or Letters Not about Love* is an epistolary novel born of this constraint, and although the brilliant and playful letters contained here cover everything from observations about contemporary German and Russian life to theories of art and literature, nonetheless every one of them is indirectly dedicated to the one topic they are all required to avoid: their author's own unrequited love.

### Editorial Review

From Library Journal

The Russian Shklovsky's own infatuation with a woman led to this epistolary novel set in 1922 in which a man is permitted to write to a woman named Alya under the condition that he not talk about love. During the subsequent correspondence, the author makes observations about Russian life, art, literature etc., all of which under the surface really are about love.
