Dream Healer: His name is Adam By Adam

This book follows the journey of a 17-year-old named Adam who has the ability to connect to and influence another person's health at a distance. His gift of distant healing is very unique as he describes his experiences for all of us to understand and explore.

The academic theories of quantum physics come to life with his first hand accounts of this interconnectedness we all share. Adam has the ability to perceive this connectivity and influence it over any distance instantaneously, or distant healing. The scientific basis of this is explained in its most simplistic form in terms of "quantum physics" and "quantum holograms".

DreamHealer provides an inspirational understanding of our own awareness as we seek to achieve a higher level of consciousness. Adam provides us with a number of intuitive health insights that anyone can use to assist themselves in self-healing, and self-empowerment. It is a straight forward, yet profound account of how Adam's journey ultimately affects us all.

From the Publisher

Thanks to Adam for being who he is, and for so openly sharing himself. If this is what he is capable of at 16 years, it is exciting to imagine his potential. One of his greatest gifts is that of a visionary. I have always loved the quote "Vision is the ability to see what isn't there." If that's true, I have a feeling Adam will be showing us what we have not yet seen. I look forward to the journey!

From the Author

I would like to express my gratitude to everyone who contributed to the making of this book by having the courage and open-mindedness to try something different. It has been an inspirational process at every step of the way. Thanks to Rachel Orr for having the gifted vision needed to make it much more than a book, but as well a beautiful work of art. Thanks to my mentors, especially Dr. Effie Chow and Dr. Edgar Mitchell for their encouraging words of wisdom. Thanks to my sister for being herself, and most of all thanks to my Mom and Dad for believing in me.
