Editorial Review

From the Author

How to Win a Street Fight: *Stand Up Fighting Techniques to Destroy Your Enemy* is one of several books in the Fight Training Series.

Actually, How to Street Fight was the first book written and two others (Ground Fighting Techniques to Destroy Your Enemy and How to Win a Street Fight: Stand Up Fighting Techniques to Destroy Your Enemy) are just that book split up into smaller volumes.

It is important to note that "How to Street Fight" contains all the information from Ground Fighting Techniques to Destroy Your Enemy and How to Win a Street Fight plus more. This is also mentioned in the description but is important because I do not want people to purchase things they already have.

In any case, the reason for splitting the books up in the first place was so that those that just wanted certain portions could get it without having to pay for the bigger book.

I feel that it is necessary to state that my intention for this book, like all my books, is NOT to replace a trained instructor. Everyone knows that trying to teach yourself any skill from a book can never replace the value of a good instructor, and it is no different here - however - if you do not have access to an instructor (for whatever reason) and/or want some training ideas and/or tips then this book is for you. Ideally you could try the ideas out and get your instructor to correct your mistakes / help coach you to be better.

I hope you find the information inside useful. Please remember that the techniques inside this book are not to be used likely. When training please be careful, and if you have to use them in a real street fight (hopefully you are never in such a situation), please be mindful of use of force.

In most cases it is best to not fight.

Sincerely,

Sam Fury.
