NFPA 1 Fire Code 2015 From Natl Fire Protection Assn

Advance to the 2015 NFPA 1: Fire Code based on the latest NFPA® codes and standards governing fire and life safety. Adopted in jurisdictions throughout North America, NFPA 1: Fire Code presents a comprehensive, integrated approach to fire code regulation and hazard management. Fully updated for 2015, this edition features extracts from and references to more than 130 NFPA codes and standards. Staying up-to-code gives fire marshals, AHJs, code officials, inspectors, facility owners and managers -- and anyone involved with hazardous materials -- the latest fire protection requirements for fire alarm, sprinkler, and life safety issues. Major changes in the 2015 NFPA 1: Fire Code: Chapter 18 includes mandatory requirements on fire hydrant location and distribution -- to assist designers with planning and AHJs and other authorities with inspections. Added mandates for carbon monoxide detection and alarm for new educational and new day care facilities and other changes reflect safeguards in the 2015 NFPA 101. Coverage of fire alarm systems for occupancies now mirrors NFPA 101 to provide additional information and reduce reference time. Don't delay -- prevent injuries and deaths and advance safety for the public and first responders with the 2015 NFPA 1: Fire Code. (Softbound, 711 pp., 2015)
