**The Human Factor: Management Culture in a Changing World** By R. Habel

The author charts an ethical roadmap for successful management in the 21st century. The information age is about knowledge, ideas and creativity which result in a dizzying array of external forces including globalization, new technologies and competition. The author argues that leadership and the human factor are being overlooked and that unless companies can convince employees and customers that they are going in the right direction then they will have no chance to survive.
