Cupid's Code: The Psychology of Relationships, Seduction, Marriage & Love By William J Starkey

From the man that dated all of the personality types:

Cupid's Code takes us on a journey of understanding the emotion that has influenced songs, wars, minds, and culture: Love. We are taken through the worlds of biology, psychology, and anthropology so that we are introduced to new ideas about how we can answer many questions that plague us about our partners and ourselves.

Throughout the journey we are introduced to stories, scientific findings, and tackle common ideas that are held in our minds about what makes the other sex tick, and explore how they can be applied to our daily lives. We find the answers to what makes people attractive, how we are seduced, how we can seduce, and what makes relationships work. Cupid challenges us to change the way we are looking at relationships. It enables us to look into the mirror so that we can explore ourselves and entertains that we will understand others through the process. It gives the information needed to be successful, confident, and competent so that we are able to enrich the lives of others.

If you are curious about how to improve the quality of communication and understanding of you and your partner, if you are seeking to develop more meaningful relationships, if you are seeking to improve the quality of your life...the secrets are hidden inside this journey.

Editorial Review

About the Author

William J Starkey is an author, scientist, and consultant with a passion for the decision making sciences. His first book, Cupid's Code, is a groundbreaking look at personality type and relationships. Based around his patented personality assessment, the S3 sorter, Cupid's Code analyzes the interrelationship of personality type and romantic fulfillment based on marriage satisfaction.

As a consultant, Mr. Starkey has worked with a variety of businesses...from Fortune 100 companies to small family-owned businesses. He has attended several different higher education institutions, both public and private. William's hobbies include reading, traveling, people and trading derivatives.

Users Review
