### Gateways Through Stone and Circle By Ashen Chassan

"Gateways Through Stone and Circle" is a compendium of personal experiences and research from a traditional ceremonial magician working through a classical book of magic. This volume is a complete and in-depth study in the "Art of Drawing Spirits into Crystals" as found in Francis Barrett's, *The Magus*, and accredited to Trithemius of Spanheim. Detailed research, personal experimentation, and evoking each of the seven planetary archangels and intelligences to visible and auditory presence are presented within. You will find descriptions of the seven planetary archangels as witnessed by the author, instructions for building each of the traditional implements and furniture to the specifications of the grimoire, as well as detailed illustrations of the author's actual equipment. Items such as the infamous Book of Spirits or *Liber Spirituum* are explained in detail so the reader will know how to make and use one. Chapters also describe methods for improving scrying abilities, working with a partner, and conducting the entire ceremony from beginning to end. Everything to make this art work is explained in incredibly vivid detail. The purpose for this book is to present a workable manual wherein the aspiring magus can replicate a valuable system of magic to achieve successful and reliable discourse with some of the most powerful beings in the cosmos. "No other book has unveiled how to perform this experiment successfully within the traditional manner." This work is not a theoretical analysis of a historic manuscript from an academic scholar, nor is it based on presumption and guess work. It is a modern day grimoire from a traditional grimorist. It is drawn from one who has been studying and practicing Western occult magic for nearly two decades and has recreated the procedures that achieve results. The methods contained within are constructed as closely to the original text as possible and filled with suggestions and points to assist the beginning magician as well as the advanced practitioner.
