Inquiry-Based English Instruction : Engaging Students in Life and Literature By Richard Beach, Jamie Myers

This valuable resource offers an alternative framework for middle and secondary school English instruction. The authors provide concrete strategies for engaging students in critical inquiry projects about the social worlds they inhabit or about those portrayed in literature and the media, their peer, school, family, romance, community, workplace, and virtual worlds.

You will find numerous examples of middle and high school students using various literacy tools (language, genres, narratives, signs, multimedia, and drama) to study, represent, critique, and transform these worlds. Rather than simply studying about literacy practices, this new framework shows how students learn best through active participation driven by a need to critically examine and promote changes in their social worlds.
