## **An Introduction to Cyberpsychology By**

*An Introduction to Cyberpsychology* is the first book to provide a student-oriented introduction to this rapidly growing and increasingly studied topic. It is designed to encourage students to critically evaluate the psychology of online interactions, and to develop appropriate research methodologies to complete their own work in this field.

The book is comprised of four main sections:

1. An overview of cyberpsychology and online research methodologies
2. Social psychology in an online context
3. The practical applications of cyberpsychology
4. The psychological aspects of other technologies.

Each chapter includes:

- Explanations of key terms and a glossary to facilitate understanding
- Content summaries to aid student learning
- Activity boxes, discussion questions and recommended reading to guide further study.

Further resources for students and instructors are available on the book's companion website, including audio and video links, essay questions, a multiple-choice test bank, and PowerPoint lecture slides.

Uniquely combining a survey of the field with a focus on the applied areas of psychology, the book is designed to be a core text for undergraduate modules in cyberpsychology and the psychology of the internet, and a primer for students of postgraduate programs in cyberpsychology.

### Editorial Review

### Users Review

#### From reader reviews:

##### William Perrotta:

Book is to be different per grade. Book for children until eventually adult are different content. As you may know that book is very important for all of us. The book An Introduction to Cyberpsychology was making you to know about other expertise and of course you can take more information. It is rather advantages for you. The guide An Introduction to Cyberpsychology is not only giving you considerably more new information but also being your friend when you really feel bored. You can spend your spend time to read your guide. Try to make relationship with all the book An Introduction to Cyberpsychology. You never sense lose out for everything in case you read some books.

##### Catherine Mejia:

Reading a publication tends to be new life style in this particular era globalization. With reading you can get a lot of information that could give you benefit in your life. Along with book everyone in this world can share their idea. Books can also inspire a lot of people. Plenty of author can inspire their own reader with their story or maybe their experience. Not only the story that share in the ebooks. But also they write about advantage about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that you can get now. The authors on this planet always try to improve their skill in writing, they also doing some research before they write to the book. One of them is this An Introduction to Cyberpsychology.

##### Jack Jackson:

People live in this new day time of lifestyle always try and and must have the time or they will get lots of stress from both daily life and work. So , if we ask do people have free time, we will say absolutely indeed. People is human not only a robot. Then we inquire again, what kind of activity have you got when the spare time coming to anyone of course your answer will probably unlimited right. Then do you try this one, reading books. It can be your alternative inside spending your spare time, the particular book you have read is actually An Introduction to Cyberpsychology.

##### Larry Pulido:

That guide can make you to feel relax. This kind of book An Introduction to Cyberpsychology was colourful and of course has pictures on the website. As we know that book An Introduction to Cyberpsychology has many kinds or type. Start from kids until youngsters. For example Naruto or Private eye Conan you can read and think you are the character on there. Therefore not at all of book usually are make you bored, any it can

make you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading that.
