### Flight: A Novel By Sherman Alexie

The best-selling author of multiple award-winning books returns with his first novel in ten years, a powerful, fast and timely story of a troubled foster teenager — a boy who is not a “legal” Indian because he was never claimed by his father — who learns the true meaning of terror. About to commit a devastating act, the young man finds himself shot back through time on a shocking sojourn through moments of violence in American history. He resurfaces in the form of an FBI agent during the civil rights era, inhabits the body of an Indian child during the battle at Little Big Horn, and then rides with an Indian tracker in the 19th Century before materializing as an airline pilot jetting through the skies today. When finally, blessedly, our young warrior comes to rest again in his own contemporary body, he is mightily transformed by all he’s seen. This is Sherman Alexie at his most brilliant — making us laugh while breaking our hearts. Simultaneously wrenching and deeply humorous, wholly contemporary yet steeped in American history, *Flight* is irrepressible, fearless, and again, groundbreaking Alexie.

## **Editorial Review**

From Publishers Weekly

A deadpan "Call Me Zits" opens the first novel in 10 years from Alexie (*Smoke Signals*, etc.), narrated by a self-described "time-traveling mass murderer" whose name and deeds unravel as this captivating bildungsroman progresses. Half-Indian, half-Irish, acne-beset Zits is 15: he never knew his alcoholic father; his mother died when he was six; his aunt kicked him out when he was 10 (after he set her sleeping boyfriend on fire because the boyfriend had been forcing Zits to have sex). Running away from his 20th foster home, Zits ends up, briefly, in jail; soon after, he enters a bank, shoots several people and is shot dead himself. Zits then commences time-traveling via the bodies of others, finding himself variously lodged in an FBI agent in the '70s (helping to assassinate radical Indian activists); a mute Indian boy at the Battle of Little Big Horn; an Indian tracker named Gus; an airplane pilot instructor (one of whose pupils commits a terrorist act); and his own father. Zits eventually comes back to himself and to an unexpected redemption. While the plot is wisp-thin, one quickly surrenders to Zits's voice, which elegantly mixes free-floating young adult cynicism with a charged, idiosyncratic view of American history. Alexie plunges the book into bracing depths. (Apr.)

His first novel in over a decade, Sherman Alexie's *Flight* winds themes of alienation, revenge, and forgiveness through its narrator's time-traveling adventures. Critics were impressed with the clever Zits: his thoughts and actions are both humorous and painfully genuine, the essence of troubled adolescence. However, reviewers complained about the lack of depth, of fully developed secondary characters, and of historical detail. Many critics also noted that the plot's swift pace and tidy ending were more appropriate for juvenile fiction. The *New York Times*, on the other hand, considered these elements part of the novel's charm. Though Alexie's latest effort may disappoint some readers, many will still find snatches of his trademark humor and moving prose.

It's tough enough to be an orphan and a ward of the state, let alone a so-called half-breed. Heck, being 15 years old is no freaking picnic, especially if your face is so badly marred by acne your nickname is Zits. Add to that a devastating history of abuse, and no wonder Zits, a gun in each hand, is about to exact revenge on strangers in a bank. Has Alexie, a high-profile writer known for provocative, inventive, in-your-face fiction about Native American life, written a classic troubled youth-turned-killer tale? Of course not. This is a time-travel fable about the legacy of prejudice and pain. Zits is inexplicably catapulted back to 1975, where he inhabits the body of a white FBI agent confronting radical Indian activists, the first episode in an out-of-body odyssey. Smart, funny, and resilient, Zits is profoundly transformed, as the hero in a tale of ordeals is supposed to be, by his shape-shifting experiences as an Indian boy at Little Big Horn, an Indian tracker, a homeless Indian drunk, and a pilot in unnerving proximity to a Muslim terrorist. Alexie's concentrated and mesmerizing novel of instructive confrontations is structured around provocative variations on the meanings and implications of flight as it asserts that people of all backgrounds are equally capable of good and evil.
